

Key Considerations

To support the reefLIVE Aquarium proposal, a full suite of environmental assessments will be undertaken including:

- Transport Statement
- Flood Risk Assessment and Drainage Assessment
- Noise Assessment
- Contaminated Land Assessment
- Heritage Assessment
- Ecological Appraisal and Habitat Regulation Assessment
- Construction Environmental Management Plan

Traffic, Parking and Access

The traffic impact of the proposed development is anticipated to be low.

Parking for aquarium visitors will be provided for the proposed development within acceptable walking distance of the site.

The proposed development requires 22 car parking spaces and these will be provided for this proposal.
